WAMSI Public Interface Version 1.0 - An Android based Mobile App, designed and developed by NIC under WAMSI Project for the use of General Public, for the following requirements:

(a) **Dashboard** indicating the present Data Inventory, of WAMSI for the key parameters such as:

1. Total Registered Waqf Estates,
2. Total Immovable Properties,
3. Total Movable Properties and
4. Total Litigated Properties.

Further, Data break-up Waqf Board-wise.

(b) **Searching** Waqf Properties on the basis of:

(i) Waqf ID (Unique Identity of Waqf),
(ii) Waqf Estate Name,
(iii) Location till Town & Village level.

During Search, General Public can drill-down till the level of individual Waqf Property, where you can see:

- Present Status,
- GIS Map,
- Photographs,
- Present Management

among other attributes of Waqf Property.

(c) **Feedback** on the performance or ways to enhance the Income of any Waqf Property or any general feedback on any aspect of the State/UT Waqf Board.

(d) **Complaint Registration** of misuse, encroachment, alienation, etc about any Waqf Property with Photograph (Optional).

(e) **Status Tracking** of Complaints: Concerned Chief Executive Officer (CEO) of State/UT Waqf Board is updating Complaint Status. Complaints Monitoring is being carried-out at central level such as Central Waqf Council and/or Ministry of Minority Affairs, New Delhi for raising reminders to the concerned CEOs for speedy & logical disposal of these Complaints.
Waqf Property Report Card with Photographs and GIS Map

Searching, Feedback and Complaint Registration
