SOCIAL IMPACT
As per the central concept of the Waqf, the Income generated from Waqf Properties should be utilized for the welfare of the needy, marginalized and under-privilege sections of the society in the name of Almighty.

Therefore, if the revenue is generated optimally with the objective of maximizing it, out of well managed Waqf Properties and put to best use like creation of Institutions such as Hospitals, Dispensaries, Universities, Colleges, Schools, Skill Development Centers besides maintaining religious institutions (viz., Mosques, Madarsas, Dargahs, Burial Grounds, etc) then most of the financial & social problems faced by needy, marginalized and under-privilege sections of the society, will be weeded out.

USEFUL TO OTHER SECTORS
As per the central concept of the Waqf, the Income generated from Waqf Properties should be utilized for the welfare of the needy, marginalized and under-privilege sections of the society in the name of Almighty.

Therefore, if the revenue is generated optimally with the objective of maximizing it, out of well managed Waqf Properties and put to best use like creation of Institutions such as Hospitals, Dispensaries, Universities, Colleges, Schools, Skill Development Centers besides maintaining religious institutions (viz., Mosques, Madarsas, Dargahs, Burial Grounds, etc) then most of the financial & social problems faced by needy, marginalized and under-privilege sections of the society, will be weeded out.

USEFUL TO OTHER COUNTRIES
WAMSI System could be very useful to other interested countries where Islamic Concept of Waqf is prevalent and in practice particularly in the West Asian, South Asian and South-Eastern Countries like Afghanistan, Armenia, Azerbaijan, Bahrain, Bangladesh, Brunei, Cocos, Cyprus, Egypt, Georgia, Indonesia, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Malaysia, Maldives, Oman, Pakistan, Philippines, Qatar, Saudi Arabia, Syria, Thailand, Turkey, United Arab Emirates, Yemen, and so on.
